

Tri-State Webinar Series

Topic: The evolution and benefits of telehealth: A surgeon's perspective

When: Thursday, 18 May 2023
6:00pm - 7:00PM (AEST)

Session Outline:

Dr Ian Smith, urological surgeon, provides urology services to Tamworth, Armidale and the surrounding regions. He provides robotic and laparoscopic surgery, prostate cancer management and treatment, and the treatment of general urological conditions. As a regionally based surgeon, Dr Smith has had to actively use telehealth to manage follow up patient appointments. He will discuss the evolution of telehealth, how he uses it, the challenges and benefits of using it, and how it can become the norm.
